Other Account Fees & Services (continued)

Fee Category	Fee Name/Description	Fee Amount
<i>Overdraft continued</i>	<i>Daily Overdraft Fee</i> A fee for each day the account remains overdrawn starting on the seventh (7th) consecutive business day of the overdraft.	\$7 per day
	<i>Non-Sufficient Funds Fee (NSF Fee)</i> Fee for a returned item occurs when an item is returned to payee when the available balance in an account is insufficient to cover a given transaction.	\$36 per item Maximum of 3 fees per day
Wire Fees	<i>Incoming Wire Fee</i>	\$15
	<i>Outgoing Domestic Wire Fee</i>	\$30
	<i>Outgoing International Wire Fee</i>	\$50

Other Important Information About This Fee
<p>We will charge you an overdraft fee for an overdraft caused by one-time debit card and ATM transactions unless you opt out of our Overdraft Choice service. For more information on this service, visit any one of our banking centers or call the 1st Source Customer Service Center at 800-513-2360.</p> <p>You may be charged overdraft fees for overdrafts caused by other types of transactions, including checks and other transactions made using your checking account number and automatic bill payments unless you have opted out of all overdraft choices completely. Then your items will be returned unpaid and a Non-Sufficient Funds Fee (NSF Fee) will be charged.</p>
<p>We charge an NSF Fee when we return items presented or submitted against your account that would exceed your available balance. You understand and agree an item you have authorized (including, but not limited to, a check or ACH) may be presented one or more times; thus, incurring a non-sufficient fund fee for each presentment. Note: we do not determine whether or when an item or transaction is presented or submitted for payment. Rather, we determine whether or not your account balance is sufficient to pay a presented or submitted item or transaction.</p> <p>As an example, if you wrote a check to a merchant (or other third party) who submitted the check to us for payment and we returned the check, you would be charged an NSF Fee. If the merchant re-presented the check for payment again (or converted the check into an ACH and submitted the item for payment), we would make an additional determination of whether the account balance was sufficient. If it is not, you would be charged an NSF fee. This means you could be charged multiple NSF fees due to the check (and, possibly, the electronically converted check) being presented and returned multiple times.</p> <p>Additionally, as another example, if you authorize a merchant (or other third party) to electronically debit your account, such as an ACH debit, the merchant submits the electronic debit to us for payment. If the transaction exceeds the available balance, the debit will be rejected, and you will be charged an NSF Fee. The merchant may re-submit the electronic debit to us for payment. If this occurs, we would make an additional determination of whether the available balance was sufficient and, if not, you would be charged an NSF fee for this additional rejected transaction.</p>
